## Contents

The 2,5 days workshop has been designed for national judges dealing with administrative law cases. It covers:

### General topics of Waste Management:

- EU waste management policy and the conceptual approach behind;
- Technical and economic issues for waste management;
- Relevance of EC law for domestic jurisdiction;
- Infringement procedure or access to justice especially with regard to environmental legislation.

### EU Waste management Framework Directive:

- Introduction and case studies;
- Summary of main ECJ case law on waste legislation.

### Other key legal instruments:

- Landfill Directive;
- WEEE Directive;
- Waste Shipment Regulation.
